

SHELF LIFE CERTIFICATE FOR ITW Chemin PRODUCTS

This is to Certify that all ITW Chemin products, stored under recommended conditions and if the container is unopened and undamaged, are guaranteed to perform and have a shelf-life as tabulated below:

Brand	Shelf Life (from the manufacturing date)
MET-L-COOL	1 year
MET-L-GARD	2 year
EZ GREASES	2 year
RUSTLICK 631	2 year
EC CLEAN	2 year

The date of manufacture can be determined from the batch number which is either printed on the labels of all containers or under the base of the can. The first two digits are the year of Manufacture. The third digit, which is a letter, denotes the month and the 4th and 5th number denotes the serial no. of batch.

The letter "A" represents January, "B" represents February, etc., through "M" which represents December. We don't use the letter "I" since it is too easily confused with the number "1". Letter "S" represents the sample material for testing / field trails.
