

Ultra Quartz from Devcon is a heavy-premium floor patching system that includes a primer. It is an excellent choice for a wide variety of applications that include repair of concrete in chemical environments where heavy concentrations of acids, alkalis and hydrocarbons destroy the floor. It is also ideal for rebuilding floors around acid dip tanks, pump pads and secondary containment areas.

Along with being trowelable to non-porous finish, other features include compression strength of 9000 psi, superior adhesion to cured concrete, non-sag formation and outstanding resistance to acids, water, oil solvents and chemicals.

RECOMMENDED APPLICATIONS

Used to repair concrete in chemical environments where heavy concentrations of acids, alkalies, and hydrocarbons are destroying the floor. Ideal for rebuilding floors around acid dip tanks, pump pads, and secondary containment areas.

TYPICAL PROPERTIES

Colour	Light Sand
Mix ratio (By wt)	2:1
Mixed viscosity	Putty - Paste
% Solids by volume	100
Pot life @ 24°C	60 min.
Application temperature	16°C -32°C
Temperature resistance	Wet: 49°C; Dry: 122°C
Minimum recoat time @ 25°C	6 - 8 hrs.
Cured hardness	95D
Packaging	35 lb. Unit
Application coverage per unit	2.6m ² @ 3mm
Compressive strength	9,000 psi
Functional cure	16 hrs. @ 24°C

CHEMICAL RESISTANCE

7 Days Room Temperature Cure, 30 days immersion

Ammonia	Excellent
Chlorinated Solvent	Excellent
Hydrochloric 10%	Excellent
Kerosene	Excellent
Methanol	Very good
Sodium Hydroxide 10%	Excellent
Sulfuric 10%	Excellent
Toluene	Excellent

ORDERING INFORMATION

Item	Unit Size	Stock No.
Ultra Quartz™	35lb.	13550
